Fri, May 26/2 PM-4 PM

TASTES LIKE HOME

Window Sill Gardening with Gayle Shatz

In this workshop you will plant some microgreens and shoots to take home and grow on your windowsill. Microgreens and shoots are seedlings of edible vegetables and herbs. Even though they are small in size, they are loaded with nutrients, vitamins, and beta carotene. Popular, not only in restaurants but for growing at home, they can be used for salads and smoothies and are relatively quick and easy to grow. Flavours range from mild to tangy to spicy.

Sat, May 27/2:30 PM

Registration required

Knitting and Crochet Club
